## **New Product Offering: FSC Certified Warmboard Panels**

-You now have the option to own Warmboard with FSC plywood-

### **Warmboard may contain FSC certified material?**

**YES!** Warmboard 4' X 8' panels are made of 1 and 1/8<sup>th</sup> inch-thick plywood. This component is the structural subfloor below a thick aluminum layer with grooves for tubing placement. Now you may request that your Warmboard consist of FSC plywood when purchasing Warmboard for 1000 square feet or more.

### **What is FSC?**

The **F**orest **S**tewardship **C**ouncil (FSC) is a non-governmental, non-profit organization that promotes the responsible management of the world's forests.

### **Why Buy?**

FSC certified materials receive recognition for their responsible forest management in the marketplace. There are positive ecological and social impacts with FSC materials. Products that include FSC certified materials ensure compliance to high standards of forestry conservation.

### **What other things should I know before I purchase?**

FSC certified Warmboard is available upon request and requires some additional lead time relative to non-FSC Warmboard panels. There is a small premium to own these types of Warmboard panels. Please call to find out more - Toll free: 877.338.5493

### **Are there other benefits?**

**YES!** FSC certified Warmboard panels increase a home's total LEED points. With a Warmboard radiant system, a home could potentially obtain between 8-13 LEED points!
